

ACTIVE WAR MACHINE TIMED BY CONGRESS

Senator Shows How Carefully Its Dissolution Has Been Provided For

By the Associated Press Washington, Nov. 12.—How carefully Congress has provided for the dissolution of the great American war machine with coming of peace was emphasized today by Senator Martin, Democratic leader, in a prepared summary. The expansion of fighting forces, of course, ends with the proclamation of peace, Senator Martin pointed out, and the collateral agencies are limited as follows: Control of railroads—twenty-one months. Control of telegraph and telephone lines—during the war. Food and fuel control—when state of war ended and proclaimed. Espionage act—end of war. War trade board and export control—end of the war. War finance corporation—six months after the war, and further time for legislation. Capital issues committee—six months after the war. Reorganization of Government bureaus under the Overman law—six months after the war. Allen property custodian—end of the war, with extension of time for certain duties. Government operation of ships—five years after the war. Aircraft board—six months after the war.

Agricultural stimulation—end of the present emergency. Housing construction—end of the war, except for shipbuilders. Labor employment—during the emergency. Minerais stimulation—as soon as possible after the proclamation of peace. Senator Martin also pointed out that appropriations and increased personnel for aircraft were limited to "the present emergency," and that authority of the President under the emergency shipping fund created June 15, 1917, ends six months after the proclamation of peace.

FRENCH SOCIALISTS WANT VOTE

Demand Made for End of Administration Under Military Law By the Associated Press Paris, Nov. 12.—French Socialists are demanding that the administration of affairs under military law be ended immediately and that a general election be held at once to take action on the problems arising out of the economic and political reorganization of the country. The party leaders declare that measures of reorganization must be taken up with the general labor federation and that representatives of the working classes be present at the peace conference. They say that an international labor socialist conference should be held during the progress of the peace negotiations. A resolution embodying these demands was passed by the Socialist group of the Chamber of Deputies last Saturday.

General Strike Called in Switzerland Bern, Nov. 12. (By I. N. S.)—A general strike was called in Switzerland today. Troops have been ordered out. The Bolshevik legation has been expelled.

NAVAL ARCHITECTS IN CONVENTION HERE

Council Precedes Twenty-fifth Anniversary Assembly of 1000 Delegates

Nearly 1000 delegates will attend the annual convention of the Society of Naval Architects and Marine Engineers, which opens tomorrow at Witherspoon Hall. The sessions promise to bring together a notable gathering of men identified with the shipbuilding industry in the United States. The council of the society held a meeting today, a forerunner of the actual convention. This meeting was held in the Bellevue-Stratford and final arrangements for the business sessions will be made. The big feature of the convention is a banquet planned for Friday, which will be attended by Secretary of the Navy Daniels, Edward N. Hurley, chairman of the shipping board, Charles M. Schwab, director of the Emergency Fleet Corporation, many officers of the navy and army and men prominent in the industrial, civil and political life of the country. The quarterly meeting of the Atlantic Coast Shipbuilders' Association will be held in conjunction with the convention.

WRESTLER BUILDS SHIPS

"Bob" Somerville, World's Champion Welterweight, at Sun Company Yard

A world's champion athlete of the mat, "Bob" Somerville, is now erecting with outstanding progress at Hull No. 6 in the Sun Ship Company yard, Chester. "Bob," whose last "bout" really is Somerville, has not forgotten his old profession, however. For he is now ready to meet all comers at 140 pounds for anything in the shape of a purse that ranges from \$50 to \$1000. His manager is endeavoring to stage a match in Chester at an early date. Somerville hails from Scotland and is the only Scotchman to hold three championships. He holds the record of having more than 500 victories to his credit. He defeated champions on both continents, including Tommy Ross, English champion; Tommy Mack, of Ireland; Eugene Trambly, of Canada; Lassalle, of France; Peter Gutz, of Germany, and received the title over young Neilson, of New York, welterweight champion of America. Somerville is the holder of Lord Lansdale's gold and silver belt, having won it at the National Sporting Club in London in 1912. Now that the war is virtually over, many "sport" followers of the Harlan yard, will explain the job of his wearing pajamas from the New Century Club hospital. Previously it was rumored this was done for diplomatic reasons. Whip the grocery store brand, so said some inside the Harlan yard. The main person: Bill Gallagher, Bill Wal-

son and Mr. Heath. They went vegetable hunting, returning after several hours with "a starting" amount of lettuce, green cucumbers and lima "bushes." Finished with the taste of success, they gave some "kick" to the boys.

Fish stories, the best ever heard have nothing on the hunting tales of "Wrat" Wratton, of the Harlan. He went "out" with ducks on Lake Ontario. The slaughter is withheld by the censor.

Richard Richardson, of the Pusey & Jones outfit, met here today that the "work-or-quit" order was going to be nullified by the proclamation of draft calls. He remained his position and returned to his trade, ship cutting.

At Walker, of the Pusey & Jones machine shop, nearly believes in that oft-heard "it happens show in a lifetime." Al met a "big" arm, was nursed back to health—then he met another one. It was no part of the time, but Al or his and hearty again and his return to the show brought a round of welcome from his teammates.

Thirteen thousand feet of pipe are being laid for the mains at the Pusey & Jones yard.

Seventeen musicians have volunteered to play in the Harlan orchestra of the Merchant yard. J. P. Louie, director, needs players who can handle bass, viola, cello, violin, clarinet, French horn, wood, bassoon and trombone.

C. Thomas Orr, of the Merchant works production department, has returned to his post after three weeks' illness with pneumonia.

The military training class at the Merchant yard started its outdoor work and calisthenic exercises yesterday at noon, and the training will be continued every day at that hour. About 200 are enrolled in the class.

M. E. Overlack, new appointed general foreman of the Merchant machine shop, is thoroughly reorganizing his department. Mr. Overlack came to the yard last November from Chester to take charge of the installation of machinery in the powerhouse. When the Waterman was under way, he assisted in installing her boilers. Mr. Overlack held four years as chief machinist in the United States navy, seeing service in China at the time of the Boxer uprising.

WANAMAKER'S DOWN STAIRS STORE At Wanamaker's

Now That the Draft Is Called Off a good many men who have delayed buying their Winter clothing, thinking they would be in uniform, find that they need a lot of things. Wise men will come straight to the Down Stairs Store at Wanamaker's, where thorough-going, dependable clothing can be had at moderate prices.

All-Wool Overcoats Start at \$25 and it is something of an achievement to be able to announce that. Every overcoat is of heavy, warm coatings, and in our stock you will find coats made in all the ways that good overcoats are made—

- conservative box coats for men whose tastes don't change.
—ulsters with back belts and convertible collars.
—ulsterettes with the trim lines that young chaps like.
The satin body and sleeve linings are features not usually found in coats at low prices.
All regular sizes at \$25 to \$35.

A Lot of Good Worsted Suits at \$32.50 Every man knows the fine service that a worsted suit gives. These are cut on conservative lines that a man won't tire of, and the dark gray of the ground is lightened a little by fine stripes of bright threads. They are all remarkably fine suits that we cannot duplicate now. Other fine all-wool suits as low as \$25. (Gallery, Market)

At \$4.65 a pair, shoes for hard wear are made of heavy black or tan leather. Shoes for Boys Dark tan or dull black leather shoes in sizes 10 to 6 are made with wide toes or on English lasts at \$3 to \$4.50 a pair. (Chester)

Delightful Dresses of Serge, Satin or Velvet at \$25 and Under The frock that is sketched is a newly-arrived model in velveteen combined with satin. The overskirt is of velveteen, the under-slip of satin and the dainty little vestee is of white satin. The bodice is cut on surplice lines, as you will see, \$25. Frocks made entirely of satin are in burgundy, taupe, brown and navy blue. Some have the collarless neck, so becoming to young women, others have the pearly luster of white satin at the throat. All have simple lines and are in excellent taste. \$14.50 and \$16.50. Serge frocks are in a goodly variety at \$15—almost a score of models for your choosing. Here, too, we find the collarless neck and much braid, colored embroidery or a generous quantity of buttons for trimming. (Market)

"You'll find a different mother, Joe when you come home"

"CURIOUS how things happen. It was Tuesday when you went away, you remember; and for twenty-two years, Tuesday has been my baking day. But that day I just couldn't bake. I sat and thought, and picked up the things that were yours, and—well, never mind about that. I just couldn't get my mind on baking; and when it was too late I went around the corner and bought a loaf of Kolb's Bond Bread. "It was the first bought loaf that had come in this house for years; and somehow it set me thinking. 'Just a little trip around the corner,' I said to myself; 'and I saved a half a day's work.' "I began to think of all the hours I had spent chained to my old cook-stove. Baking bread, and boiling clothes, and doing a dozen things that machines can do ten times as well.

"I said to myself, 'I'm going to have a part in this war. I'm not going to spend another hour of my life in doing what a machine can do better. I'm going to buy Kolb's Bond Bread. "So now I've more time, Joe, to write to you. And time to write to your old pals, Frank, Tom and the rest. "And I've more time for my knitting socks and sweaters for the Red Cross, because it might be a cold winter. Of course, I know I can't do as much as you are doing, Joe, but I'm going to do my best. "We'll have some great times together, Joe, when you get back home. You're not going to outgrow your old mother, are you, Joe? Meanwhile, I'm going to have time, for the rest of the war, to help cheer up my boys at the front.
